

'Steps to ASPIRE' Competency

Task 4: INDEPENDENT

Task: Planting and growing Sunflowers

By nurturing the growth of sunflowers from seed, you will cultivate your **independence**. Witness the gradual development of your sunflowers as they grow in size and strength in response to your care. This task mirrors your journey at The Bourne Academy, where you will blossom and enhance your independence throughout your time here.

Detailed instructions for this task can be located on the Transition page of the Academy website. Should you encounter any challenges accessing the required materials for this task, rest assured that all essential items for growing sunflowers are likely available at home. Enclosed within a small envelope, you will discover sunflower seeds. Exercise caution when opening these seeds for planting at your convenience. Additionally, a sunflower growth diary is provided for you to document their nurturing journey.

Please return your Independent Task by:
Completing the form (found on the school website Transition page), and uploading a photo of the progress of your sunflower between the 17-24 June.

**No later than:
Monday 24 June 2024**

Please send us photos to update us on the progress of your plant throughout the summer via the same link.

The Bourne Academy, Hadow Road, Bournemouth, Dorset, BH10 5HS.
